

AUTUMNAL BOTANICA

Evoking the richness and romance of an autumn celebration, where organic textures meet refined sophistication. The outdoor cocktail hour is warm and sunlit, with burnt orange linens and black seating providing bold contrast against crisp white architecture. Transitioning indoors, the space is transformed into an enchanting botanical-inspired setting. Deep green velvet linens anchor the palette, while towering floral arrangements—filled with pampas grass, golden roses, and cream hydrangeas—add height, softness, and drama. Candlelight dances across amber-toned glassware and modern place settings, creating an inviting, immersive ambiance. Above, lush ceiling installation of greenery and cascading white blooms bring the beauty of nature indoors, completing a look that's both lush and luxurious.
